Here's what just a few clients have said about **Mazel Tov Cocktail**:

"Mazel Tov Cocktail played at my outdoor wedding and they absolutely stole the show. They played for about four hours, and the dance floor was never still. The music they played was perfect for all of the younger generations, and also included songs that made all the adults get up and dance. The band has true musical talent and puts its own spin on every song, even on the classic dance covers. This is NOT a typical wedding band! They offer a unique blend of funk, rock & soul music that makes everyone want to move and sing along. Many guests at my wedding asked me for the band's information. Some people even thought they'd throw a party just so they had a reason to hire the band. They are phenomenal. Don't think twice, hire them!" - *Emilie Brand*

"This is a long overdue letter thanking Mazel Tov Cocktail for making Helen and Noah's wedding so memorable and so much fun. I believe the band is the most important element in a good party, and we did have a good party! Our guests were dancing every moment, thanks to the band's enthusiasm and excellent musical talents. We received many compliments from our family and friends, and, most important of all, Helen and Noah loved their own wedding and party. The band

was very professional and conscientious, punctual and meticulous in the set-up and sound checks. They played the exact music we chose, including pieces that were unfamiliar and had to be learned. The band kept everything on track, and the various elements of the evening flowed very nicely. Please feel free to use my name as a reference for potential clients. I would be delighted to recommend MC for any celebration." - *Susan Feingold*

The Band
